Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 January 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Receipt of amendment filed 1-28-03 is acknowledged. Claims 26 and 37 have been amended and new claims 74-83 have been added as requested. Claims 26, 37-44, 49-53, and 72-83 are pending.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 26, 37-43, 49-51, 72-74, 76, 79, and 81 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Amer (5,266,571; hereafter '571).**

3. '571 discloses topical compositions for treating hemorrhoids comprising nefazodone. The concentration of active overlaps with the instant claimed range, is administered in a cream, gel, or ointment and includes a neutralizing agent and/or carrier in the formulation (abstract; C 2, L 52-54, C 3, L 45-64, C 5, L 10-C6, L 18; claims).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 1615

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. **Claims 44, 52-53, 75, 77-78, 80, and 82-83 are rejected under 35 U.S.C. 103(a) as being unpatentable over Amer (5,266,571; hereafter '571) in view of Knepp et al (1990).**

7. '571 teaches topical compositions for treating hemorrhoids comprising nefazodone. The concentration of active overlaps with the instant claimed range, is administered in a cream, gel, or ointment and includes a neutralizing agent and/or carrier in the formulation (abstract; C 2, L 52-54, C 3, L 45-64, C 5, L 10-C6, L 18; claims). '571 does not teach inclusion of a penetration enhancing agent or a slow release delivery vehicle such as a liposome, microsphere or polymer stabilized crystal in the formulation.

8. Knepp teaches topical delivery of an active agent in a liposome combined with a penetration enhancing agent to provide controlled release of the active agent.

9. Accordingly, it would have been obvious to one skilled in the art at the time of the invention to combine '571 and Knepp with the motivation of controlling the release of nefazodone in the treatment of hemorrhoids.

Response to Arguments

10. Applicant's arguments with respect to claims 26, 37-44, 49-53, and 72-83 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
